V.O.T.A.U - EP

1. HAMMERHEAD

[Click Here To Listen](#)

April 24th - Hammerhead. A fast-paced, energetic statement of who Vazon are; a complete blend of energy and melody. With an earworm of a hook/chorus and a riff that is broken down in three different ways, Hammerhead is the first and a pure cold shower to introduce Vazon's sound.

2. RAGE

[Click Here To Listen](#)

July 31 - Following Hammerhead, Rage is a much more angry and hard hitting track. A real punch in the face and a serious contrast for the rest of the EP, proving that energy can be conveyed in more than one way in music. With breakdowns, powerful vocals and real hard-hitting meaning.

3. YOU'VE SEEN BETTER

A step into the more iridescent and psychedelic tones within our work, You've Seen Better is a gift of danceability, abstract and thoughtful lyricism and music that ever so slightly intriguingly clashes, providing an eerie and dissonant emotion to the EP. Plans are to release it along with the whole EP release around December 2026 - February 2027.

4. GOLDEN

Golden is a song for tears and breath, celebrating powerful strides of Robin's bass and the controlled chaos of Aiden's drumming. It's a step away from the heavy riffs and presents itself more as a heavy ballad. Release plans for the whole EP release.

5 + 6. DANCE WITH THE DEVIL / MY STONE ANGEL

[Click Here To Listen](#)

A beautiful insight into the chaotic and powerful rage within Vazon; a first half slow looming riff supported with monstrous vocals, with a second half that erupts with flavour and chaos - a true EP ender that turns everyone insane live. Plans for release October 30th 2026 with a Halloween release show.
